PROFILE

Media producer with over four years of hands-on experience across documentary, interview, narrative short film, event, and promotional video production as well as photography. Over the past two years, I have worked as a media producer for Constructor University, creating content for departments including Marketing, Alumni, and the professional Studio Labs production department, while taking on a wide range of student-led and charity productions. Founded and built the Student Media Production (SMP) Studio from the ground up, securing over €50,000 in investment and significantly raising the standard of media on campus. Transitioning from a three-year background in Electrical & Computer Engineering—a discipline known for its high-pressure, precision-driven environment—I bring that same rigour and technical problem-solving mindset to cinematic storytelling and media production.

MEDIA EXPERIENCE

Head of Student Media Production (SMP) Studio

2023 – Present

Constructor University Bremen

- Act as the university's in-house media producer—creating video and photo content for Marketing, Alumni, and the university's professional Studio Labs production department on an ongoing basis.
- Revitalised an under-resourced centre into a recognised part of campus life, with regular equipment loans and active student engagement across disciplines.
- Built a custom web-based equipment tracking app (HTML/React) to manage inventory and student loans.
- Mentored students of the SMP minor through their own media projects.

Camera & Set Assistant

2025 – Present

Constructor Studio Labs

- Worked across 8–10 professional productions in the university's dedicated studio and on location, operating at an industry standard alongside an experienced crew.
- Progressed from lighting assistant to focus puller; gained extensive hands-on experience with dolly systems and the Blackmagic PYXIS in a structured professional set environment.

Founder & Club Leader – Student Media Production (SMP) Club

Sep 2025 – Present

Constructor University Bremen

- Founded the SMP Club to create a collaborative peer-learning space for practical media skills.
- Built an active team of six students through hands-on workshops and real project work; team members now hold media-related roles across the university.

Videographer & Editor (Graduation Video & Alumni Homecoming)

2024 – 2025

Constructor University Bremen (Marketing & Alumni Departments)

- Produced a cinematic graduation montage featuring 6–8 graduates sharing their university stories, serving as the sole camera operator and editor in a two-person crew.
- Conducted and documented alumni interviews at both Homecoming editions; developed the ability to handle interview-heavy shoots and manage footage at scale.

Camera Operator & Screenwriter

2025

Freshman Academy (Uzbekistan)

- Produced a high-impact social media ad reel (Instagram/TikTok) for an audience of 30,000+ followers, taking responsibility for camera work, visual composition, and script under challenging lighting conditions.
- Co-wrote and shot a narrative short film with a crew of 7–10 exploring identity and cultural roots; took full creative ownership of both camera and story direction.

Videographer & Photographer

2026 – Present

Achim Bürger-Stiftung (Achim)

- Invited to collaborate on a voluntary basis following a successful portfolio review of prior work.
- Developing a targeted three-video media concept to attract new volunteers and donors for the foundation.
- Completed professional talking-head interviews with volunteers; documentary shoots of community activities currently in production.

Photographer (Landscape, Nature, Wildlife & Events)

2019 – Present

Freelance / Independent

- Over four years of active photography experience across landscape, nature, wildlife, and event contexts, showing continuous development in composition, lighting, and post-processing.

EDUCATION

BSc Electrical & Computer Engineering

Sep 2023 – May 2026

Constructor University Bremen (Formerly Jacobs University)

- Fully English-language programme in an international environment representing over 120 nationalities.
- Built strong foundations in programming, systems thinking, and technical problem-solving, deliberately leveraging these skills to pivot into professional media production.

High School Diploma – Physics & Mathematics

2019 – 2021

School named after Mirzo Ulug'bek, Tashkent, Uzbekistan
